Five Heats Necessary to Decide King George V Stake-Brown Stallion Steps Second Heat in 2.06 1-4-Dudie Archdale Takes 2.06 Trot in Straight Heats.

Fort Erie, Ont., Aug. 13.—The Grand Circuit meeting opened today with a bunner attendance, the largest since the old days of the Hamilia track here. Four stirring races were witnessed, three going to the favorites. The track was fast and one horse made a new mark and another squalled his record. The feature was the King George V. stake, \$5,000 for 2.12 trotters. It resulted in an upset, Esther W., winner of the Tavern "steal," at Cleveland, losing the race to Badena brown stallino by Bingsora. Five heats were trotted to get a winner. Eather W. sold favorite in the pools and worked in the state. In each hat Baden's in the state of the state, as the state of the state of the state. The state were trotted to get a winner. The time for the mile was 2.061-4, a second faster than the stallon's mark. Baden won the third heat easily, when Foster W. broke at the five-elights pole. In the fourth heat Baden stepped on a stane at the distance flag and lost the heat to Ocidate. The final heat went to Baden, but a claim of foul was registered with the judges by Snow, driving Oaktdate. He claimed he was shut off by Rodney after the start, forcing the gray gelding to a bad break. The foil was not allowed, although the judges held the decision for 30 minutes.

Collins of Westerly at Fair Grounds.

Abe the Newsboy, New London's wrestler, who has now turned to the boxing game, was in the city on Tuesday with blood in his eye. He was on the warpath for any welterweight in the state to fight at 148 pounds on Labor day at the Fair Grounds. White in the city he received a telegram that he had been matched with Jack Denning of Buffalo for a go before the Buffalo A. C. on September 7. If he outpoints the Buffalo man who is touted as a clever one, Abe expects to be in line for a bout with Mike Gibbons of St. Paul.

Abe is particularly anxious to hear from Bill Colling, he said, for the Labor day fight. The former Central Village man is now in Westerly, but its reported in excellent shape. Abe himself kept hard on his southern trip as official newsboy of the U. S. S. PRICES IN NARROW LIMITS. Moderately Large Trading at First Fell Off in Later Hours.

New York, Aug. 13.—Dealings in stocks today were of a singularly con-fusing character. Trading was mod-erately large in the first hour. Later it fell off to minor proportions, but at no time was there marked strength

at no time was there marked strength in those issues which constitute a potential speculative force.

For the greater part of the session favorites like United States Steel and the Harriman and Hill issues moved within narrow limits, when not under restraint, while Reading and Lehigh Valley were obviously under pressure. In fact, Reading's heaviness was a foremost feature of the day.

There was a continuance of the ippoward movement in shares of such southern transportation lines as Lohsouthern transportation lines as Loh-isville & Nashville and Atlantic Coast line, the buying being stimulated by circumstantial details concerning forthcoming developments in the first named property.

named property.

Unusual strength was also manifested by the Gould group as represented by Denver & Rio Grande common and preferred, and Missouri Pacific, while Eries, too, were in demand. Coppers and General Electric, as well as Southern Railway preferred were very active at higher prices in the final hour, the market making a fairly strong close after another spell of weakness in the anthracites, Union Pacific and a few other prominent issues.

issues.

London's operations in this market were on a larger scale than recently. Purchases, mainly Steel, Amaigamated Copper and the Erles probably totaled as much as 30,600 shares.

General news included advices from steel trade centers pointing to una-bated activity and demand for fin-ished products, and declaration of reg-

ished products, and declaration of regular Canadian Pacific dividends coupied with an excellent annual statement by that system.
